

WARHAMMER 40,000 CODEX: LEGION OF THE DAMNED

Official Update for 7th Edition, Version 1.0

Although we strive to ensure that our rules are perfect, sometimes mistakes do creep in, or the intent of a rule isn't as clear as it might be. These documents collect amendments to the rules and present our responses to players' frequently asked questions. As they're updated regularly, each has a version number; when changes are made, the version number will be updated, and any changes from the previous version will be highlighted in **magenta**. Where a version number has a letter, e.g. 1.1a, this means it has had a local update, only in that language, to clarify a translation issue or other minor correction.

FAQs

Q: Can a Legion of the Damned Detachment be used as a Primary Detachment?

A: Yes.

Q: The rules as written mean an army made up entirely of the Legion of the Damned automatically loses the game, as due to the Aid Unlooked For special rule they lack the needed units on the board in turn one. Can you play them as an army on their own without needing to ally with another Detachment to avoid automatically losing in turn one?

A: The Legion of the Damned are primarily meant to act as allies for other Imperium forces. If your army only contains Legion of the Damned Detachments, we suggest agreeing with your opponent that you can use the Aid From Beyond special rule, even outside of its normal mission context.
