

WARHAMMER 40,000 CODEX: SKITARII

Official Update for 7th Edition, Version 1.0

Although we strive to ensure that our rules are perfect, sometimes mistakes do creep in, or the intent of a rule isn't as clear as it might be. These documents collect amendments to the rules and present our responses to players' frequently asked questions. As they're updated regularly, each has a version number; when changes are made, the version number will be updated, and any changes from the previous version will be highlighted in **magenta**. Where a version number has a letter, e.g. 1.1a, this means it has had a local update, only in that language, to clarify a translation issue or other minor correction.

FAQs

Q: Does a Fortification taken as part of an Adeptus Mechanicus War Convocation get free upgrades, for example a Void Shield Generator?

A: No.

Q: The Dominus Maniple Formation lists '1 Onager Dunecrawler' as part of the Formation. Can additional Onager Dunecrawlers be purchased for this unit?

A: No. The Formation entry is not for a unit of Onager Dunecrawlers, but a single model.

Q: In the Dominus Maniple Formation, there have been printed rules that say the Formation requires Skitarii Vanguard, and other printed rules that say it requires Skitarii Rangers. Are either of these in error, or can the Formation use either 1 unit of Skitarii Vanguard or 1 unit of Skitarii Rangers?

A: You can use whichever version of the datasheet you have.

Q: I have a question about the rules of the Dominus Maniple Formation from my Start Collecting! Skitarii box. Does the Skitarii Doctrina Imperatives special rule work on the Tech-Priest Dominus, and does the Canticles of the Ommissiah special rule apply to the Skitarii Rangers?

A: No, each unit is affected by the special rules listed on their datasheet.

Q: In Codex: Skitarii, the special rule 'Luminagen' reduces a unit's cover save by 1 until the end of the phase if they suffer one or more unsaved Wounds, glancing or penetrating hits. When taking cover saves against a weapon with this rule, do you roll the saves one at a time until you fail, with the rest of the saves being taken with the 1 point reduction, or do you roll them all at once and then apply the modifier once that shooting attack has been completed?

A: You would roll all your saves at once against a particular Luminagen weapon (for example, against all the heavy phosphor blasters from a unit of Onager

Dunecrawlers). If your unit suffered any unsaved Wounds, glancing or penetrating hits from that attack, it would count its cover save as being 1 point worse than normal until the end of the phase. If the Onager Dunecrawlers had any weapons that they had not already fired, these would benefit from this cover save penalty.

Q: When firing several weapons with the Luminagen special rule, do the penalties to cover saves stack (i.e. do 2 hits with Luminagen weapons give a -2 modifier to cover saves)?

A: The penalty from suffering an unsaved Wound, or a glancing or penetrating hit, caused by a weapon with the Luminagen special rule does not stack. It will never impose more than a -1 penalty on a unit's cover save.
