

WARHAMMER 40,000 – IMPERIAL ARMOUR

INDEX: FORCES OF THE ASTRA MILITARUM

Official Update Version 1.2

Although we strive to ensure that our rules are perfect, sometimes mistakes do creep in, or the intent of a rule isn't as clear as it might be. These documents collect amendments to the rules and present our responses to players' frequently asked questions. As they're updated regularly, each has a version number; when changes are made, the version number will be updated, and any changes from the previous version will be highlighted in **magenta**. Where a version number has a letter, e.g. 1.1a, this means it has had a local update, only in that language, to clarify a translation issue or other minor correction.

FAQs

Q: The Death Korps of Krieg, Elysian Drop Troops and Renegades and Heretics Army Lists each detail numerous units that can be taken from Index: Imperium 2. Do these units have to be taken from Index: Imperium 2, or can they be taken from Codex: Astra Militarum instead?

A: If the unit appears in *Codex: Astra Militarum*, you must use the datasheet from there.

Q: Can Death Korps of Krieg, Elysian Drop Troops or Renegades and Heretics Detachments use any of the Regiment-specific rules (Doctrines, Orders, Stratagems, Warlord Traits, etc.) in Codex: Astra Militarum?

A: No. Instead these units use the bespoke abilities and Orders that are described in *Imperial Armour – Index: Forces of the Astra Militarum*.

Q: Can Death Korps of Krieg or Elysian Drop Troops be taken as a Detachment of Brood Brothers as part of a Genestealer Cult army? If so, do I replace any keywords or abilities?

A: Yes. In these cases, you replace the **DEATH KORPS OF KRIEG** or **ELYSIAN DROP TROOPS** keyword with **BROOD BROTHERS** in all instances on these units’ datasheets. Furthermore, if a unit has the **BROOD BROTHERS** keyword then it cannot use the Cult of Sacrifice and Aerial Drop abilities.

Q: Does a Master of Ordnance’s Master of Ballistics ability affect Earthshaker Platforms or Earthshaker Carriages?

A: No. It only affects **BASILISKS**, **WYVERNS**, **MANTICORES** and **DEATHSTRIKES**.

Q: If I issue an order to an artillery battery’s crew (for example, the crew of a Heavy Mortar or Earthshaker Carriage Battery), does the effect of the order also apply to their artillery piece?

A: No.

Q: There is no datasheet for a Death Korps of Krieg Hades Breaching Drill Squadron – is there a datasheet I should use for this unit?

A: Use the Hades Breaching Drill Squadron datasheet from *Imperial Armour – Index: Forces of the Astra Militarum*. Replace the unit’s <**REGIMENT**> keyword with **DEATH KORPS OF KRIEG**.

Q: There is no datasheet for a Ryza Pattern Leman Russ Vanquisher – is there a datasheet I should use for this unit?

A: Use the Leman Russ Stygies Vanquisher datasheet from *Imperial Armour – Index: Forces of the Astra Militarum*. Replace the unit’s co-axial storm bolter with a co-axial heavy stubber (this is identical in terms of points and profile to a heavy stubber) and replace ‘heavy stubber’ with ‘storm bolter’ in the Co-axial weapon ability.

Q: The classic Shadowsword model from Forge World has two side sponsons, each with twin heavy bolters, but without lascannons – is there a datasheet I should use for this unit?

A: Use the Shadowsword datasheet from *Codex: Astra Militarum*. Replace the unit’s option for two or four sponsons, each with a lascannon and twin heavy bolter or twin heavy flamer, with ‘two sponsons, each with a twin heavy bolter’.

Q: If my Warlord is not a Renegade Commander, does that mean I cannot choose a Chaos Covenant for my Renegades and Heretics units?

A: That is correct – in order to choose a Chaos Covenant your Warlord must be a Renegade Commander.

Q: Can passengers disembark from an Elysian Drop Troops Valkyrie on the same turn it is set up on the battlefield, using the Aerial Drop ability?

A: Yes, but the Valkyrie counts as having moved more than 20” for the purposes of its Grav-chute Insertion ability.

Q: What datasheet should I use for Mukaali Riders?

A: It is an unfortunate truth that we can’t continue indefinitely to sell and support every model we’ve ever made. As we make new models, and new books to explore their background and rules, we have to stop producing and featuring some older models. But just like many of you, we still treasure our collections of older miniatures, and we still want to be able to use them in games and forge glorious narratives on the tabletop! As such, the datasheet for Mukaali Riders can be found below, but it is intended for use in open play or narrative play games; it is not designed or approved for use in matched play games (the unit won’t, for example, have any points values).
