# CODEX: HARLEQUINS

## Official Update Version 1.0

Although we strive to ensure that our rules are perfect, sometimes mistakes do creep in, or the intent of a rule isn't as clear as it might be. These documents collect amendments to the rules and present our responses to players' frequently asked questions. As they're updated regularly, each has a version number; when changes are made, the version number will be updated, and any changes from the previous version will be highlighted in **magenta**. Where a version number has a letter, e.g. 1.1a, this means it has had a local update, only in that language, to clarify a translation issue or other minor correction.

### FAQs

*Q: How does the Riddle-smiths Masque Form interact with abilities that generate additional attacks or score additional hits?*

A: If a unit has an ability that generates extra attacks on a roll that exactly matches the result of a Riddle-smiths roll, the extra attack is generated. Note that the original attack still misses, and if the hit roll for the extra attack also matches the result of the Riddle-smiths roll, it also misses. Likewise, if a weapon has an ability that scores additional hits on a roll that exactly matches the result of a Riddle-smiths roll, it would score those additional hits, but they'd all miss.

*Q: If a unit Falls Back with the intention of embarking at the end of their move, can the Cegorach's Jest Stratagem be used against that unit after it has moved within range of the transport, but before it embarks?*

A: Yes.

*Q: If the An Example Made Stratagem is used on a Shadowseer, does it work for the hallucinogen grenade launcher?*

A: Yes.

*Q: When a Soaring Spite Warlord uses the Skystrider Warlord Trait to disembark after their transport moves, can the Warlord then move normally as well?*

A: Yes.

*Q: If a Soaring Spite Warlord's transport is moved in the Psychic phase as a result of the Twilight Pathways psychic power, can the Warlord use the Skystrider Warlord Trait to disembark after that move?*

A: No.
